## A SAFE TONIC FOR MOTHERS

### Who Do Not Recover Their Strength as They Should

Every mother who fails to regain her health and strength after confinement needs a tonic. The years of weakness and suffering which so often follow are unnecessary and easily avoided. The fact that her strength does not return is a certain indication that her blood supply has been overtaxed and is impoverished. This condition is often made worse when the mother takes up her household duties while she is still weak, when a complete breakdown results. The strength a weak mother needs can be quickly found in the tonic treatment with Dr. Williams' Pink Pills. These Pills increase and enrich the blood supply, and thus bring health and strength to the exhausted system. Mrs. Robt. Little says: "I have nursed for upwards of twenty-five years, and I could relate many cases, relieved and cured, through the use of Dr. Williams' Pink Pills. In maternity cases which I nurse I always use them and I know of no other medicine that so speedily builds up the mother at this critical time. I have also found them of great value in the case of young girls, and I can add that as for myself they have saved me many a doctor's bill. I feel safe in saying they are the best tonic medicine I know of."

Nursing mothers will find Dr. Williams' Pink Pills will give her just the strength she needs, and they will at the same time aid in keeping her child healthy. If you do not find these Pills at your dealer's they will be sent by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

## So Thoughtful

Wife—What time did you get home last night? Husband—Eleven thirty! Wife—I sat up until 12. Husband—Yes. I sat on the front steps until you retired, so as not to disturb you.

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy, and years of use have enhanced its reputation.

And this same cement is sold to you for your silo, your foundations, your feeding-floor, your milk-house or your watering-trough. Used according to the directions in our free book "What the Farmer can do with Concrete," Canada Cement never fails to give satisfactory results. Write for the book. ## Neapolis Notes

Floy Lantz is still on the sick list  
with but slight improvement.

The Avelson threshing outfit has  
made a most satisfactory clean up of  
grain in this community.

H. E. Pearson attended Councilor's  
meeting at Olds on Saturday last. H.  
E. is certainly working in the interest  
of the people. He fills his office in-  
stead of just holding it down.

Whooping cough seems to be an  
epidemic.

Mrs. Perry Barnes is making an ex-  
tended visit with his parents in Dids-  
bury, and Perry is wishing he had an-  
other cat to help out with the dishes.

Frank Fritz has ordered an engine  
to use in connection with his hay  
press.

Hello! Zella, why don't you send on  
those items? The Editor wants the  
news from out your way.

We hear that Henry is going to take  
a wife. Now Henry, be careful! Ten  
chances to one she won't milk after  
you get her all paid for.

T. C. Ward and family, J. A. Cook  
and family and the Misses Myra,  
Sadie and Katie Duncan, helped to  
dispose of the Sunday dinner at J. D.  
Ward's.

John Dougherty is still improving  
the King's Highway.

Frank Bell is planning to take over  
the management of a farm out near  
Acme. Too far Frank. "While the  
cat is away the mouse will play."

There is a very live S. S. held at the  
Neapolis school house every Sunday,  
but the attendance is too small. How  
about an oyster supper or an ice cream  
social or something of that kind to let  
us heathen know what you are doing.  
Most of us can work up a fair brand  
of religion on a well filled stomach.

## Swalwell

Threshing is over, thanks to the fine  
weather. The crop has been good,  
the wheat graded high and there is  
practically no frozen grain.

The quantity of grain shipped this  
year will not equal 1912, more farmers  
are feeding to live stock.

A. Nash of Carlton has opened a  
general store at Swalwell and Baird &  
Bishop a lumber yard.

The price of lumber has dropped a-  
bout six dollars.

Sielert is drilling for coal, he is  
authorized by Lowry & Co. of Calgary  
to sink to four hundred feet.

The G.T.P. roadbed is in fair shape  
and the trains are beginning to speed  
up.

Coyotes are plentiful and are play-  
havoc with the feathered stock on  
some of the outlying farms.

The farmers elevator will take in  
grain in about a weeks time. The  
building is practically completed.

There is some enquiry for land here  
but the farmers are not anxious to sell.

I did not need to make the excuses of my story. They lay before me.

At 11 o'clock Hunter called up. He said he was going after the affair himself, but that it was hard to stick a dip net into the political puddle without pulling out a lot more than you went after or than it was healthy to get. He wanted to know if I had come across any more K.V.'s. Whereupon I put away the notes I had made about Della and Maude Brennan.

### CHAPTER III Ninety-eight Pearls

I went to Bellwood that evening. It was a suburban town a dozen miles from the city. Street cars had so far failed to spoil its tree-bordered streets and it was exclusive to the point of stagnation. The Malland place was at the head of the main street. Miss Letitia, who was seventy, had had sufficient commercial instinct some years before to cut her ancestral acres—then ancestral acres, though Miss Jane hardly counted—into building lots, except perhaps an acre which surrounded the house. Thus the Malland ladies were reputed to be extremely wealthy. And as they never spent any money, no doubt they were.

I had taken dinner at Bellwood before, and the memory was not hilarious. Miss Letitia was deaf, but chose to ignore the fact. With superb indifference she would break into the conversation with some wholly alien remark that necessitated a reassembling of one's ideas, making the meal a series of mental gymnastics. Miss Jane, through long practice and because she only skimmed the surface of conversation, took her cerebral flights easily, but I am more unwieldy of mind.

Nor was Miss Letitia's dominance wholly conversational. Her sister Jane was her creature, alternately snubbed and flattered. To Miss Letitia, Jane, in spite of her sixty-five years, was still a child, and sometimes a bad one. Miss Letitia and the resplendent books to read and forbade her to read divorce court proceedings in the newspapers.

Poor Miss Jane. She met me with a fluttering cordiality in the hall that night, safe in being herself for once.

## SALT RHEUM CAME OUT ON HANDS

Formed Watery Pimples. Itchy and Had Horrible Burning Sensation. Lost Some of Finger Nails. Could Not Open Hands. Cured by Cuticura Soap and Ointment.

225 N. Edgar St., Toronto, Ontario.—

"For seven years I have been troubled with salt-rheum. It came out on my hands and formed kind of watery pimples all over them which became itchy and it had a horrible burning sensation which caused me a good deal of pain. It came out on my hands in the fall and remained there till after spring. I might mention that I lost some of my finger-nails by the disease. During this length of time I was utterly useless, as I could not open my hands. I tried several other patent medicines without a bit of relief. Some of my friends advised me to try Cuticura Remedies so I sent for samples and by using them there was a great improvement. Then I went to the druggist and bought one cake of Cuticura Soap and two boxes of Cuticura Ointment; after using them I am glad to say I am completely cured. I had given up all hope of being cured. I can say to all those who have suffered as I have, not to lose courage but to give Cuticura Remedies a fair trial." (Signed) Miss Lillian Irwin, Oct. 13, 1911.

For more than a generation Cuticura Soap and Cuticura Ointment have afforded the most economical treatment for affections of the skin and scalp that torture, itch, burn, scale, and destroy sleep. with the knowledge that Miss Letitia always received me from a throne-like horseshair sofa in the back parlor. She wore a nice new lace cap and was twitteringly excited.

Our niece is here she explained as I took off my coat—everything was 'ours' with Jane; mine, with Letitia, and we are having an ice at dinner. Please say that ice are not injurious Mr. Knox. My sister is so opposed to them, and I had to beg for this.

On the contrary, the doctors have ordered fees for my young nephews, I said gravely, and I dote on them myself.

Miss Jane beamed. Indeed, there was something almost unnaturally gay about the little old lady all that evening.

Miss Letitia received me as usual, in the back parlor. Miss Fleming was there also, sewing by a window, in her straight white dress, with her hair drawn back and braided around her head she looked even younger than before. There was no time for conversation, Miss Letitia launched at once into the extravagance of both molasses and butter on the colored orphan's bread.

You have had no news at all? Miss Fleming said cautiously, her head bent over her work.

None, I returned under cover of the table linen to which Miss Letitia's mind had veered. I have a good man working on it. As she glanced at me questioningly. It needed a detective, Miss Fleming. With every movement of the girl I could see the gleaming of a diamond on her engagement finger.

If I didn't watch her, Jane would ruin them, said Miss Letitia. She gives them apples when they keep their faces clean, and the bills for soap have gone up double. Soap once a day's enough for a colored child. Do you smell anything burning, Knox? I sniffed and lied, whereupon Miss Letitia swept her black silk, her colored orphans and her majestic presence out of the room. As the door closed, Miss Fleming put down her sewing.

I do not dare to tell them, Mr. Knox, she said. They are old, and they hate him anyway. I couldn't sleep last night. I have hemmed tea towels for Aunt Letitia today until I am frantic, and all day I have been wondering over something you said yesterday. You said, you remember, that you were not a detective, that some men could take nineteen from thirty-five and leave nothing. What did you mean?

I was speechless for a moment. The fact is—I—see, I blundered, it was a—merely a figure of speech—a speech of figures—is more accurate. And then dinner was announced.

Miss Letitia presided in garrulous majesty. The two old ladies picked at their food, and Miss Jane had a spot of pink in each withered cheek. Margery Fleming made a brave pretense, but left her plate almost untouched. As for me, I ate a substantial masculine meal and half apologized for my appetite, but Letitia did not hear. She tore the board of managers to shreds with the roast and denounced them with the salad.

Please to eat your dinner, Jane whispered. I made the salad myself. And I know what it takes to keep a big man going. Harry eats more than Letitia and I together. Doesn't he, Margery?

Harry? I asked. Miss Jane leaned forward to me after looking at her niece. Harry Wardrop, a cousin's son, and—she patted Margery's hand with its ring—soon to be something closer.

The girl's face colored; but she returned Miss Jane's gentle pressure. They put up an iron fence, Miss Letitia reverted somberly to her grievance, when a wooden one would have done. It was extravagance, ruinous extravagance.

Harry stays with us when he is in Manchester, Miss Jane went on, nodding brightly across at Letitia, as if she, too, were damning the executive board. Lately he has been almost all the time in Plattsburg. He is secretary to Margery's father. It is a position of considerable responsibility, and we are very proud of him.

I had expected something of the sort, but the remainder of the meal had somehow lost its savor. There was a lull in the conversation while dessert was being brought in. Miss Fleming sat, one hand on the table, staring absently at her engagement ring.

You look like a fool in that cap, Jane, volunteered Letitia, while the plates were being brought in. What's for dessert?

Ice cream, called Miss Jane over the table.

Well, you needn't, snapped Letitia, I can hear you well enough. You told me it was junket.

I said ice cream, and you said it would be all right, poor Jane shrieked, if you drink a cup of hot water after it, it won't hurt you.

Fiddle, Letitia snapped unpleasantly. I am not going to freeze my

stomach and then thaw it out like a drain pipe. Tell Hepple to put my ice cream on the stove.

So we waited until Miss Letitia had been heated and was brought in, shielded over with pale hues, not of thought, but of confectioner's dyes. Miss Letitia ate it resignedly. Like as not I'll break out, I did the last time, she said gloomily. I only hope I don't break out in colors.

The meal was over finally, but if I had hoped for another word alone with Margery Fleming that evening, I was foredoomed to disappointment. Letitia sent the girl, not ungently, to bed and ordered Jane out of the room with a single curt gesture toward the door.

Old-Time Health, Eating Grape-Nuts.

"I had been sick for 10 years with dyspepsia and a lot of complications," wrote a Western woman.

"An operation was advised, change of climate was suggested, but no one seemed to know just what was the matter. I was in bed three days in the week and got so thin I weighed only 89 lbs. No food seemed to agree with me.

"I told my husband I was going to try some kind of predigested food to see if I could keep from this feeling of continued hunger.

"Grape-Nuts and cream was the food I got and nothing has seemed to satisfy me like it. I never feel hungry, but have a natural appetite. Have had no nervous spells since I began this food, and have taken no medicine.

"I have gained so much strength that I now do all my housework and feel well and strong. My weight has increased 8 lbs. in 2 weeks and I shall always eat Grape-Nuts as it is far pleasanter than taking medicines." Name given by Canadian Postum Co., Windsor, Ont. ### Temperance

Beginning with the first of 1914, Icelanders and tourists alike will have to quench their thirst with other than alcoholic drinks. Under the Anti-Spirit law, consumption of the present stock of liquors in Iceland, which will to a certainty be exhausted by January 1, was permitted.

Since Iceland began to deal with the liquor question in a drastic manner, her trade and industries have tremendously increased. In the past 20 years a great dairying trade has been built up and sheep raising and fishing have grown to enormous proportions.

Sirs,—I came across a bottle of your MINARD'S LINIMENT in the hands of one of the students at the University of Maryland, and he being so kind as to let me use it for a very bad sprain, which I obtained in training for foot races, and to say that it helped me would be putting it very mildly, and I therefore ask if you would let me know of one of your agents that is closest to Baltimore so that I may obtain some of it. Thanking you in advance I remain, Yours truly,

It Will Cure a Cold.—Colds are commonest ailments of mankind and if neglected may lead to serious conditions. ### Salt Cellar Hoodoo

In some parts of the world, particularly in Germany, it is still believed that the upsetting of the salt cellar is the direct act of Satan—the peace disturber. And the habit of trying to avert any catastrophe which may happen by tossing a little of the salt over the shoulder is due to the belief that by so doing one hits the invisible Satan in the eye, which temporarily at least, prevents him doing further mischief.

## 5 YEARS' RHEUMATISM REALLY CURED!

Your Case Isn't Likely to be Worse, and Can be Cured Quickly by Nerviline

### HERE IS THE PROOF

"After being an enthusiastic user of Nerviline for years, I feel it my duty to tell you personally what your wonderful preparation has done for me. I suffered torture from rheumatism and heart trouble, tried scores of so-called remedies, consulted for weeks and months with Toronto's most eminent physicians, but derived only slight benefit.

"I then insisted on my using Nerviline, and to my surprise a vigorous rubbing of this powerful liniment eased the pains and reduced the stiffness in my joints. I continued to use Nerviline and was permanently cured. I am now perfectly well, and for three years have had no rheumatism at all. I know many families where no other medicine but Nerviline is kept—it is so useful in minor ailments like earache, toothache, neuralgia, coughs, colds, lumbago, and sciatica. I call Nerviline my 'Life Guard,' and urge all to try its merit." Dec. 17th, 113 Palmerston Avenue, Toronto.

(Signed) FLORA CHAPMAN.

It is almost criminal to keep on suffering when Nerviline can be had in any drug store. 50c. buys a large bottle, 25c. for the trial size. Prepared by The Catarrhobone Co., Buffalo, N.Y., and Kingston, Ont.

#### Bagley's Revenge

On one occasion, just previous to opening in one of the large cities, Joseph Jefferson discharged his property man, Bagley, for humiliating him before a number of friends by familiarly addressing him as 'Joey.' Bagley got drunk right away, and that night made his way to the gallery to see Mr. Jefferson present 'Rip Van Winkle.' The angry man had just driven poor, destitute Rip from the cottage, when Rip turned, and with a world of pathos, asked: 'Den haf I no interest in dis house?' The house was deathly still, the audience half in tears, when Bagley's cracked voice responded: 'Only, eighty per cent., Joey—only eighty per cent.'

## HAD ITCHING PILES FOR 27 YEARS

Often Laid Up for Days at a Time—A Wonderful Tribute to Dr. Chase's Ointment.

Few people were ever more enthusiastic in praising Dr. Chase's Ointment than the writer of this letter. When you read the description of his case you will not wonder why.

Mr. John Johnson, Coleman, Alta., writes: "Three years ago I was cured of blind, itching piles of 27 years' standing by using Dr. Chase's Ointment. I used to think that death would be the only relief I would ever get from the terrible misery of piles. Often I was laid up for three days at a time, and at other times worked when I should have been in bed."

"Dr. Chase's Ointment is worth sixty dollars a box instead of sixty cents. I am a different man since using it. I am farming all the time, and never miss a day. Words fail to express my gratitude for the cure this ointment made for me. I cannot tell half as much about it as it deserves. Any one doubting this can write direct to me."

#### All He Asked

The young man and the girl were standing outside the front door having a final chat after his evening call. He was leaning against the doorpost, talking in low tones. Presently the young lady looked round to discover her father in the doorway, clad in a dressing gown.  
Why, father, what in the world is the matter?  
John, said her parent, you know I have never complained about your staying late, and I am not going to complain of that now; but for goodness sake stop leaning against the bell-push and let the rest of the family get some sleep.

#### Variable

Old Lady—How old are you, little boy?  
Bobbie—I am under five years on the street cars, and over sixteen when I go to the movies.  
Asthma Overcome. The triumph over asthma has assuredly come. Dr. J. D. Kellogg's Asthma Remedy has proved the most positive blessing the victim of asthmatic attacks has ever known. Letters received from thousands who have tried it form a testimonial which leaves no room for doubt that here is a real remedy. Get it to-day from your dealer.

#### Rash Promise

Wife (complainingly)—You promised before we were married that I should have all the money I wanted.  
Hub—I must have thought there was much more of it in circulation.

Worms, by the irritation that they cause in the stomach and intestines deprive infants of the nourishment that they should derive from food, and mal-nutrition is the result. Miller's Worm Powders destroy worms and correct the morbid conditions in the stomach and bowels that are favorable to worms, so that the full nutriment of the child is assured and development in every way encouraged.

#### Merely Logical

BOBBY, complained the famous twirler, I'm all run down!  
I don't wonder, sharply answered the manager of the team. You've been trying to save your arm by pitching, without winding up.

#### Hockey Club Meeting

A meeting of the Didsbury Hockey Club was held in the Alexandra sample room on Monday evening, November 10th. J. A. McGhee was requested to take the chair and G. E. Sexsmith requested to act as secretary pro tem. The following officers were elected for the season 1913-14:

Hon. Pres.—Hon. J. E. Stauffer  
M.P.P., Mayor H. B. Atkins.  
Hon. Vice-Pres.—H. W. Chambers, W. G. Liesemer, A. G. Studer.  
T. W. Cuncannon, D. C. Davison.  
W. G. Kyle and J. C. Schrader.

President—J. A. Findlay.  
Vice-Pres.—P. R. Reed.  
Sec.—Treas.—J. Pirie.

Executive committee—J. V. Berscht, L. J. Kalbfleisch, L. S. Curtis, G. O. Johnston, T. H. Stark, J. A. McGhee.

A letter from Jas. Mann, Secretary A.A.H.A. was read, requesting that we send a delegate to a meeting to be held in Calgary on November 14th, for the purpose of organizing an intermediate league. Moved by Mr. J. Pirie—W. Shantz, that Mr. Johnston be appointed delegate and that the club pay his expenses.

It was decided to hold a meeting on Monday night November 17th to hear report of delegate and also to meet a rink committee to make arrangements for coming winter.

It was decided to form a town league, consisting of about four teams, who would play off for the "Berscht" cup, emblematic of the championship of Didsbury. This cup is at present held by the single men. The High school, the bankers and the clerks have already signified their willingness to put fast teams on the ice.

The formation of an intermediate league, has been very favorably received on this line and it is expected that all of the small towns will enter fast teams. We have a number of fast young players here and expect to put up a stirring brand of fast clean hockey.

#### Provincial Schools of Agriculture

The official opening of the Provincial Schools of Agriculture will take place next week. The opening exercises in connection with the Vermilion School will take place at Vermilion, Monday, November 17th; Claresholm, Wednesday, November 19th; and at Olds, Friday, November 21st. The schools will be open for inspection during the afternoon and classes will be carried on in the different lines of instruction given at the school so as to show visitors the nature of the work undertaken. A meeting will be held in the evening and addressed by leading speakers in the province. The public are cordially invited to attend these opening exercises. Invitations are being sent to the public men in the province, but everybody is invited to attend, and will be made heartily welcome. It is most important that a large number of farmers who are conveniently situated to these schools will make it a point to be present and see the kind of instruction work that is being carried on. There are now 126 registered pupils in actual attendance at the three schools, and a great deal of interest is being shown in agricultural education in the province by the farmers and farmer's sons.
